+1 604 600 8600

Learning these languages and frameworks has been a very enjoyable challenge, I am a sponge for new information and seek out new information and better ways to enhance my projects.

Learning using outdated courses has encouraged me to do my own research for best practices and how to work around outdated packages.

Personal Details

Highest Level of Education: Secondary School

Work Experience

Drummer

Swear Jar - Western Canada

May 2018 to Present

I compose, record, and perform music with a solid group of friends.

Drummer

Parting Ways - Western Canada

May 2015 to Present

I compose, record, and perform music with a solid group of friends.

Drummer

Hold the Line - Western Canada

January 2014 to Present

I compose, record, and perform music with a solid group of friends.

Fiber Optic Technician

Harbourview Electric - Burnaby, BC

June 2016 to March 2020

Placed and spliced fiber optics all across the Lower Mainland including Squamish and Whistler. Build Splice cases, tested splices with Shaw, connected new building with fiber, and updated old building from coax to fiber for better service.

Drummer

Youth Fountain - Western Canada

March 2017 to October 2019

I compose, record, and perform music with a solid group of friends.

Carpenter Apprentice

Sea-Pat Construction - North Vancouver, BC

April 2014 to June 2016

Demolished and built homes from the ground up as well as updated/renovated older homes. Concrete foundations, footings, framing, finishing, roofing. Comfortable using hand tools, and learning new techniques and practices quickly.

Technical Support Representative

Shaw Communications - Vancouver, BC

July 2012 to April 2014

Inbound call center agent responsible for technical difficulties. Learned how to navigate their old DOS system to optimize work performance. Received inbound calls to extend help with technical issues regarding internet, phone, television, and billing.

Upgraded everyone in the Lower Mainland to the new system (requiring everyone to have a Shaw/Telus box). Upgraded packages with discounts, and helped retain business.

Ensured customers had a positive experience as well as fixed any issues they may have been experiencing, as well as offer them cheap package upgrades.

Education

Secondary School in Web, Blockchain, Video Game Development

Udemy - Kelowna, BC

February 2021 to Present

Unity Game Development

May 2021 to Present

Learned how to develop an RPG Adventure game using Unity and C#. Learned how to navigate and integrate Unity with Visual Studio's, and created a fully functioning game.

Additional Information

I'm a self-taught drummer who has proven that you don't need a formal education to exceed in life. During and after high school I joined the work force when I was 13 years old. I started off at a bakery making \$7 an hour, and used that money to finance my very own drum set.

I am extremely motivated and work well with others. My passion for creativity and perfection carries over into every aspect of my life. I am capable of learning new advanced concepts, and know how to conduct my own research and development without supervision.

I love to both teach others what I know, and learn new concepts, best practices, and efficiency. I look forward to working with you in the future.
